FIRE THE TEACHERS.

QUITE A SENSATION AT FULTON OVER SCHOOL BOARD'S ACTION.

The School Board at Fulton, Ky., created quite a sensation Monday night by declaring the places Miss Johnson and Miss Cayce were elected to teach in Carr Institute vacant. The reason was that the young ladies had been trying to get positions as teachers elsewhere, after they were elected there, and it was reported that they would not teach in Fulton if they could help it. They were examined here for teacher's certificates, and it is understood applied for and did not get any.

Miss Emma Lee Dwyer, of Jackson, was elected to fill one of the vacancies but the other one will not be filled for two weeks.

The Fulton Leader states that since the School Board adopted its restrictions relative to dancing, there has been considerable trouble with the teachers.

REWARD DOUBLED

GOVERNOR OFFERS \$500 FOR HIGH LUGAN SLAYERS.

Frankfort, June 26.—Governor Beckham today doubled the reward offered for the arrest of the murderers of Hugh Logan, of Princeton, Ky., who was killed near Hickman several weeks ago while performing his duties as a flagman on the Illinois Central. The reward is now \$500. For several days detectives were on the trail of the murderers, and it was at last decided he was killed by the brother or brothers of a young lady in Tennessee. It was reported at the time that the murderer had gone east.

POLICE COURT.

THE BEASLEY RAPE CASE IS NOT YET FINISHED

The Beasley rape case consumed the greater part of the day in the police court. New witnesses were introduced, but as the attorneys on both sides had more witnesses and the case was continued until three o'clock this afternoon.

Charles Haines was fined \$10 and costs for a breach of the peace.

There were two cases against James Baker, both for breaches of ordinance, by allowing tables to run at large. One was dismissed and the other continued until tomorrow.

Maggie Haglund got a fine of \$10 and costs for a breach of ordinance.

The case against M. H. Millan and H. C. Thompson, breach of ordinance, was continued until tomorrow.

The case against J. R. Brown, for malicious entangling, will be called this afternoon.

This afternoon at 3 o'clock the case against J. H. Brown for malicious entangling was dismissed and the Beasley case was continued until tomorrow morning.

TWENTY LOST.

DISASTER OFF CAPE BALLARD—ESCAPE OF FIVE HUNDRED.

St. John's, New Foundland, June 26.—The steamer Lusitania was wrecked off Cape Ballard, and of the five hundred passengers aboard, twenty are reported lost. They were in the lifeboat when it foundered. The others were all saved.

GRAVEL CONTRACTS.

MAYOR LANG DOES NOT THINK ONE WILL BE LET AT PRESENT.

Yesterday afternoon there were five bids opened for furnishing gravel to the city. The lowest was 60 cents a yard, but it is claimed that a provision modifies it to such an extent that it could be anything from 60 cents to a dollar and a half.

City Engineer Wilcox stated that none of the bids conform to the advertisement, and Mayor Lang said that he did not think the contract would be let at all. The matter was last night referred to the street committee.

MEET TOMORROW.

COMMITTEES WILL PROBABLY HAVE A CONFERENCE THEN.

Chairman Radolph, of the council committee appointed last night to meet with the street car company officials, with a view to settling the differences of the company and the city, will probably hold a meeting tomorrow some time.

Friday July 6, Paducah day, at Cairo mid-summer carnival, 9 o'clock trip.

TRIBUTE PAID

Board of Magistrates Meet and Pass Resolutions of Respect.

JUDGE YOUNG PRESIDED

The Chair of the County Judge Will be Disposed in Mourning for Thirty Days.

GOVERNOR TO APPOINT A NEW JUDGE

There was a meeting of the fiscal court, or board of magistrates, this morning at 9 o'clock at the court house, Justice Young, the nearest magistrate, and acting county judge, was called to the chair, and a committee composed of Justices Hylan, Barber and Showell was appointed to draft suitable resolutions on the death of County Judge Tully.

Justice R. J. Barber made some appropriate remarks in the meantime, saying quite a pretty tribute to the deceased.

The following resolutions were then adopted:

Whereas, the Hon. J. T. Tully has been called from life, and has been ruled by the highest of all courts to lay down his life's burden, and to report to receive his reward in the world to come. And whereas by his death the office of county judge is vacant, which office of responsibility and trust he so ably filled.

Now therefore be it resolved by the board of magistrates of McCracken county, that in the death of the Hon. J. C. Tully the community has lost a worthy and upright citizen, the county has lost an able, fearless and conservative public official, and his family has lost an indulgent and loving husband and father, and while those who have been left his going is a lamentable loss, yet by the going he has gained that to which he was so much entitled—eternal rest.

Resolved further, that a copy of these resolutions be spread on the minutes of the county court records, that the same be published in the papers of Paducah and a copy of same be sent to his wife.

Signed: H. J. BARBER, Chairman, L. B. SHENK, W. N. HILAN.

It was ordered that the chair of county judge be draped in mourning for thirty days. The court then adjourned to attend the funeral this afternoon in a body.

Governor Beckham has not yet appointed a successor to Judge Tully. There are two applicants: "Squire" J. M. Eschall and Mr. Wynne Tully. Mr. Charles Minery says he is not an applicant and would not accept the place.

There is no doubt as to who makes the appointment. The following is a copy of the law, approved on February 10, 1894:

No. 19. The following officers shall have commissions issued to them by the governor, that is to say: Secretary of state, register of the land office, auditor of public accounts, treasurer, commissioner of agriculture, labor and statistics, superintendent of public instruction, judge of court of appeals, clerk of the court of appeals, judges of the circuit courts, county judges, police judges, railroad commissioners, commonwealth's attorneys, justices of the peace, notaries public, and all officers of the militia of rank not grade higher than and including the rank and grade of captain. Should a vacancy occur in any of the said offices, by reason of death or resignation, or removal or any other cause, or should a like vacancy occur in any other office where there is no provision of law for filling same, such vacancy shall be filled by the appointment of the governor, subject to the provisions of the constitution applicable thereto.

DIED AT DANVILLE.

Mrs. Mary Newhouse, Mother of Mrs. Lon Kell, died a day or two ago at Danville, Tenn., and was buried Monday. She was about 60 years old, and Mr. and Mrs. Kell were at her bedside. The report in some of the papers that Capt. Kell had shot his wife was without foundation.

The train was going at terrible speed when it crashed through a trestle and sixteen Italian emigrants were sent into eternity. Of the fifty passengers many were injured, and were prominent people. There was great confusion and excitement as a result of the wreck and at present it cannot be definitely determined how great the mortality will be. It is not known how the train came to go through the trestle.

\$200,000 LOSS

Six Blocks in Mayfield Destroyed by Fire This Morning at 12:30 O'Clock.

Four Hundred Hogheads of Tobacco, Seven Rehandling Houses and Thirty-two Dwellings Burned—Blaze Could Not be Controlled.

The most destructive fire in the history of Mayfield occurred this morning about 12:30 o'clock. Seven tobacco rehandling houses, thirty-two dwellings and several smaller buildings were burned, entailing a loss of from \$150,000 to \$200,000. Many people are rendered homeless, and a large part of the town is in ashes.

The blaze originated in H. F. Keys' hoghead factory, and spread rapidly on account of the wind. It got beyond control in a short time, and soon consumed everything in its path. The fire could be seen for miles, many citizens of Paducah being out on their housetops watching the light.

The course of the conflagration was north, east and south. Ligon and Allen's tobacco shed was burned, with 400 hogheads of tobacco, valued at about \$75,000. There was about \$10,000 insurance on the tobacco.

Six other tobacco sheds were burned, with about 200 hogheads of tobacco, and most of the other property was frame dwellings. The sheds belonged to Ligon Brothers, Usher Brothers, Gerlinger and Keys and J. A. Wright.

In area the fire extended over six blocks. The Illinois Central property was in imminent danger for quite a while, but was saved.

There was the greatest excitement in the little town, and today there has been much suffering from lack of homes and work. The loss will perhaps reach \$200,000, but the amount of insurance cannot be estimated. Most of the insurance on tobacco

and doubtless much on other property was held by Paducah agents. The water supply was inadequate to the occasion, and it is said to have been one of the causes of the disastrous spread of the flames.

The origin of the fire is unknown. It was discovered shortly after it broke out and is the third or fourth to occur there within a few months. Mayfield seems to have been unusually unfortunate in the matter of fires, the record being nearly thirty in one year.

The detailed losses are: Cash Bradley, residence, \$1,000; Cash Bradley, grocery, \$1,500; Chas. Jones, residence, \$2,000; grocery, \$2,000; Jeff Alcock, warhouse, thirty hogheads, \$4,000; Joe Hamlet, residence, \$600; John Allen's heirs, two homes, \$1,000; Joe Hamlet, two dwellings, \$5,000; Jack Reynolds, five cottages, \$1,500; Ligon and Allen, tobacco and warehouse, \$75,000; Jay Small, residence and wagon yard, \$5,000; Ligon Allen residence, \$1,500; Obe Allen warehouse, \$1,500; Ewing Graham, Jack Perry, forty hogheads tobacco, \$6,000; Moore's rehandling house, \$2,000; Joe Wright's rehandling house, \$3,000; Bob Moore, rehandling house, \$2,000; Ben Keys and Fayette Gardner, rehandling house, \$2,000; Ben Keys' hoghead factory, lumber yard, \$8,000; Tom Ryan, tobacco house, \$3,000; six other cottages of non-residents, \$3,000.

Mr. J. H. Howell, of Mayfield, who arrived at noon, states that the total insurance will possibly amount to \$100,000.

REVIVAL NEAR

COL. SCOTT THINKS GRAND RIVERS HAS A BRIGHT FUTURE—OVER 100 MEN WILL BE PUT TO WORK NEXT MONDAY—FORTY NOW WORKING.

Col. Tom Scott, of St. Louis, who is superintending the work of reconstructing the furnaces at Grand Rivers, was in the city last night, and returned this morning. He now has forty men at work there, and Monday will have at least one hundred. Col. Scott thinks that Grand Rivers will certainly soon be revived, and that it has a great future. There is now unusual activity, and when the furnaces start in about four months there will doubtless be a larger boom than was ever known in the little place.

Several prominent gentlemen of Bandana, Bullant county, yesterday met and organized a bank and the amount of capital stock subscribed is \$25,000, although they didn't expect to get but \$15,000. A FINE TRIP

Paducah Teachers Are Preparing to Attend the National Association.

MEETS AT DETROIT IN JULY

Prof. C. B. Hatfield in Charge of the Paducah Crowd—There Will be a Special Train Out of Louisville.

LASTS FROM JULY 8th TO 12th

Quite a number of Paducah teachers and others are preparing to attend the meeting of the National Educational Association at Detroit, Mich., from July 8th to 12th inclusively. Among those who have already announced their intention of going are: Supt. C. B. Hatfield, Prof. J. T. Rose, Mrs. May Ricks, Misses Adah Braselton, Flora McKee, Hephzibah Boudin, Harriet Wilson, Emma Morgan, Clara Moore.

Others will doubtless make up their minds later to go, and may leave later than the 8th, when the above crowd leaves Paducah. An attempt will be made to secure a list of citizens to go. A special train of the Kentucky road will be made up at Louisville and go straight through to Detroit.

The last meeting of the National Educational Association was held at Charleston, S. C., and was a great success. Teachers from all the southern and eastern states attended and the lectures and discussions were of great benefit to the educational world. It is confidently expected that the teachers will attend this meeting in even greater numbers than at the previous meetings, as the railroads have not only offered exceptionally low rates with stop-over privileges at various points, but the opportunity is afforded of seeing the Pan-American exposition at Buffalo, as well as the delightful summer resorts around Detroit. Aside from these features there has been prepared a most elaborate program, full of interesting discussions and lectures on vital problems of education which are to be discussed by authorities who have been selected with great care. Among those who will speak are United States Commissioner of Education W. T. Harris, Hon. A. T. Bliss, governor of Michigan; Hon. W. C. Mayhew, mayor of Detroit, and Hon. Richard Harcourt, minister of education, Toronto, Ont.; Prof. Hillebrand is down on the program for a discussion on "Economics and Education."

President W. Goodell Frost of Berea college will deliver a lecture entitled "Educational Planning in the Southern Mountains." Prof. Livingston McChesney, superintendent of the Hopkinsville public schools, will deliver a lecture entitled "The Library and School As Co-ordinate Forces in Education." The programs already arranged promise a convention of unusual excellence and interest. There will be eight sessions of the general association, six sessions of the national council, five sessions of the department of Indian education, and two sessions of each of the other sixteen departments, making 61 sessions in all, including over 150 prepared papers on educational questions by eminent educators, besides numerous discussions, round tables and conferences.

The local receptive committee at Detroit has provided 18 halls for meetings and all other facilities for successful convention sessions. Arrangements are in progress for entertaining in private homes, at reasonable rates, from 15,000 to 16,000 members in the expectation that the total attendance will reach 20,000.

All who desire to make the trip should communicate with Supl. Hatfield, and sign the list at once.

IT IS OFFICIAL

Roadmaster L. A. Down's Appointment to New Orleans is Permanent

OFFICIAL ANNOUNCEMENT

Chief Engineer Harahan at Memphis—Changes on the Memphis Division Reported for July.

INTERESTING RAILROAD MATTERS

Mr. L. A. Down's transfer to the office of Road Master of the Mississippi division of the I. C. has been officially announced. Mr. Pat Galvin has been appointed Road Master of the Louisville division to succeed Mr. Down, and Mr. Martin Graham has been appointed to the place vacated by Mr. Pat Galvin. Mr. James Galvin has been appointed a supervisor of the northern end of the Louisville division. These changes were officially confirmed this morning.

Chief Engineer W. J. Harahan left this morning at five o'clock for Memphis on a special train accompanied by Superintendent A. Philbrick, of the Memphis division, and Train Master Jack Flynn.

Mr. Chas. Sugars, of the Yard Master's office, is on the sick list.

Mr. H. U. Wallace, superintendent of the Louisville division, returned to Louisville this morning accompanied by Mr. Martin Graham.

To provide for the fast growing export trade which is finding an outlet from the ports of the South will be the chief mission of J. T. Harahan of the Illinois Central railroad in a voyage to Europe which he will make next month. The directors of that great road have already taken steps largely to increase the facilities for handling this business by arranging for a weekly steamer service to Great Britain. This, however, is not sufficient and an effort will be made to attract additional shipping.

"When I go to Europe," said Mr. Harahan today, "I shall take with me facts and figures to show to vessel owners the importance of New Orleans as a port. In order to get tonnage to take care of the export trade it is necessary to induce imports. One is largely dependent upon the other. It will therefore be my task to try to prove to vessel owners that it will pay them to bring their merchandise to New Orleans for distribution and take away what the railroads will be able to bring to that city this year."

When improvements now under way by the Illinois Central in New Orleans are completed the company will have an elevator capacity there of 3,500,000 bushels.

Master Mechanic Barton returned from Louisville yesterday afternoon. Charles and Thomas Carrington and Robert Johnson, residing near Grantsburg, Ill., have been captured and placed in the Johnson county jail by special agent Griffin, of the Illinois Central railroad, charged with attempting to wreck a train on the Paducah branch of the road.

Several months ago Johnson's mother was killed near the place where the attempt to wreck the train occurred, and it is thought that a spirit of revenge was the animus back of the recent crime. A young man named Ashby escaped and has not yet been captured. All the prisoners are young men. The present capture is considered a very important one by officials.

Supervisor W. O. Waggoner was in the city last night.

Grand barbecue at Brien's Ford, seven miles from Paducah on the Clark's river, Saturday, July 6. Plenty of amusement. Everybody invited.

SUES FOR REVENUES.

Mr. George T. Harris today filed suit in the circuit court against the Paducah News Publishing Co. to recover \$104.85 he claims due him for work. Mr. Harris was for several months a reporter and during that time claims he was not paid regularly, and that a balance of \$104.85 is due him.

GOOD PROMOTION

Following the announcement that Mr. J. F. Wallace is to be made a director of the Illinois Central, comes the announcement that General Superintendent M. Gillies is to be promoted, and will have his headquarters in Chicago. The Paducah Leader says that the change is to take place some time next month, and that Mr. Gillies is to be succeeded by Mr. W. S. King, now superintendent of the Jackson, Tenn., division of the Illinois Central. It is not now announced who will succeed Mr. King.

A POPULAR I. C. FREIGHT CONDUCTOR WEDS MISS ADAMSON.

Mr. Stetzel has many friends here who will be pleasantly surprised to learn of his matrimonial venture. The young lady is well known in Tennessee and is one of the most successful ladies in Jackson.

The gravel pit back of the Baumer dairy was drained yesterday and about two wagon loads of fish caught. Several I. C. blacksmiths seized the pit before it went dry and captured the greater portion of the fish caught.

BRIDGE COMPLETED.

The new seventy-six foot bridge near Lewisburg, being built by the county, was completed today. There are now only about forty miles of county roads not in good condition. The twenty-five miles of new dirt road being built are progressing nicely.

Y. M. C. A. WORK.

STATE SECRETARY ROSEVEAR RETURNS TO LOUISVILLE TONIGHT.

State Secretary H. E. Rosevear, of the Y. M. C. A., will return to Louisville tonight to attend the monthly meeting of the state committee. The committee will pass on the work of the different associations and especially examine and receive the reports of the subscriptions in the different cities. In Covington the officers have raised two subscriptions of \$10.5 000 each with good prospects of soon obtaining \$50,000. The officers of Lexington are also subscribing to reach \$50,000 with which they will erect a Y. M. C. A. building. The second annual convention of Muhlenberg county will be held next week and Secretary Rosevear will be present. The financial canvass in this city is reported as progressing and it is believed the necessary amount will be made up by the specified time. The subscriptions for the swimming pool are coming in fast and it is thought that no trouble whatever will be experienced in obtaining the necessary amount.

MANCHESTERS' COMPROMISE.

London, June 26.—Eugene Zimmerman of Cincinnati, has put his son-in-law, the Duke of Manchester, in a position to offer his creditors 25 shillings 6 pence in the pound. A meeting will be held Thursday to consider the proposal.

A BIG CHECK.

Attorney John K. Hendrick has been notified that a check for \$18,000, the amount of the compromises in the Grand Rivers cases, has been forwarded. As soon as it arrives various amounts of compromise agreed on sometime ago will be paid and the title will be practically clear.

S. S. CONVENTION.

Also Sunday afternoon at three o'clock p. m. at the Cumberland Presbyterian Church.

Besides local speakers, there will be Prof. Fox, well known to people here, Prof. H. K. Taylor, of Louisville, and Miss Naomi Lee Fryer, one of the very finest primary workers, whose fame is becoming national.

SALTY CHARGES FOUR MONTHS

General Chaffee Accuses the Allied Armies of Many Murders.

SHOWED NO QUARTER

It is Claimed That Fifty Coolies and One Boxer Were Killed—Women Not Soared.

CREATED GREAT DISTURBANCE IN CHINA

Washington, June 21.—The report of Major General Chaffee on the campaign in China is being prepared for publication at the war department. Among other matters it contains special reports upon the Russian, Japanese, French and British troops, also reports on equipment supplies, etc., of foreign troops, and reports on different expeditions. These reports were made by United States officers, and from a military point of view are of considerable interest, but nearly all the main facts have heretofore been published.

None of Gen. Chaffee's comments are interesting. At one point he says: "For about three weeks following the arrival of the column at Peking the condition in and about the city and along the line of communication was bad. Looting of the city, foraging in the surrounding country and seizure by soldiers of everything a Chinaman might have, as vegetables, eggs, chickens, sheep, cattle, etc., whether being brought to the city or found on the farms, indiscriminate and generally unprovoked shooting of Chinese in city, country, and along the line of march and the river—all this did not tend, as was natural, to gain for the troops the confidence of the masses, with whom it is certain we had no quarrel, but were in need of their labor. It is safe to say that where one real boxer has been killed since the capture of Peking, fifty harmless coolies or laborers on farms, including not a few women and children, have been slain. No doubt the boxer element is largely mixed with the mass of population, and by slaying a lot, one or more boxers might be taken in."

Then Chaffee speaks of the restraint he placed on American troops. The Japanese commander also made it known that general war on all classes was not intended. Gen. Chaffee says he opposed entering the Forbidden City unless looting was prohibited. This was agreed to and he thinks that but little looting was done there. Those articles have been taken from the Forbidden City.

MISS JEANETTE CAMPBELL WINNING LAURELS IN NEW YORK

The New York Clipper of this week contains an excellent picture of Miss Jeanette Campbell, of Paducah, daughter of Judge James Campbell, the well known lawyer. Miss Campbell has been studying for the stage for last year or more in New York and it will be pleasant news to her many friends here to know that she is achieving a most enviable success. She has been given every advantage and has been trained under the best teachers in the largest dramatic schools of the east, and is now playing prominent roles in Procter's Stock company at Albany, N. Y.

The Clipper, which is the leading dramatic magazine of America, compliments Miss Campbell most highly and her many friends may expect to hear of her reaching the highest pinnacle of fame in the course of time. Her art is of the highest order, and her work in amateur organizations before she left Paducah was at all times most creditable, and evoked the most unstinted and deserved praise. Miss Campbell's many friends will wish her every measure of success.

FIRM MARKET

The Prices in the Local Tobacco Market This Week Unchanged.

THE WEEK'S LOCAL SALES

Two Firms Held Sales in Paducah, and the Offerings Were Quite Large During the Week.

THE REJECTIONS WERE LIGHT

From Thursday's daily.
The tobacco market experienced practically no change from that of last week excepting on lugs. There were larger offerings but the bidding was not so lively as was expected. The market has recovered somewhat from its recent depression. Gilbert & Co. held no sales yesterday but will offer a few hogheads today.

J. W. Farmer & Co. report three-fourths of the breaks, lugs and the prices on lugs two bids lower than last week. The following is the report:
Offered 100 with undetermined rejections.
Common to medium leaf sold from \$5.50 to \$6.50.
Medium to good leaf brought from \$7.50 to \$9.

Lugs were a little easier than last week and were about two bids easier than last week's lug market. Leaf is reported fully up in comparison with the market of the past several weeks. There were no hogheads of fine leaf offered. The out of town buyers were out in force. Mr. J. T. Myers, formerly a prominent tobacco buyer of Mayfield, but now of Louisville, was in the city yesterday attending the sales.

Fields Bros., who came here from Fulton and opened a warehouse several months ago have several hogheads to sell but did not offer them yesterday. They have conducted only one sale since they started their business.

The Western District Warehouse company report the market generally a little lower than that of last week with a drop in lugs. The breaks were principally lugs and common leaf with one hoghead of good leaf, bringing \$10. There was no fine leaf offered. The following is the report of yesterday's sales.

Offered 118 hogheads.
Rejections light.
Common leaf sold from \$5.50 to \$7.50.
Lugs sold from \$4.45 to \$5.50, a drop of two bids, about 15 cents.

The sales were attended by a number of country tobacco growers with very few out of town buyers. The sales were not satisfactory to the dealers.

The local dealers think the market will pick up in the next several weeks and regain its former activity.

Observations ...at Random

A well known young man of Paducah who has dyspepsia claims that he is a record breaker when it comes to egg eating. He ate from last September until April, eighty-eight dozen eggs, or 1,056 eggs in six months, 174 eggs a month. He discovered about two months ago that one of the patent foods sold at the store sufficed to keep him happy than the eggs, and he now lives on that.

A prominent gentleman who lived in a large city before he came to Paducah has been trying to have a big city lawn. He lives in a large and modern residence, and all the spring arose early to mow the grass and keep it properly trimmed. There is no fence, and the place was rapidly becoming a fine big city residence with up-to-date yard, when during the still hours of night the town clock came along and mowed trouble for the lawn mower. The gentleman's friends are amused now when they pass early in the morning to find stretched in front of the house a long cotton rope answering the purpose of a fence, and as a protection from the lawns of the town cow. It doesn't enhance the attractiveness of the lawns, but it keeps out the cows.

The big cyclist is judged a sorely pressed individual. A few weeks ago he could hardly ride over the streets on account of the holes. Now he can hardly ride over them for the piles of loose gravel that have been dumped into the holes.

A BROOKPORT SENSATION.
The Metropolis Herald says that quite a sensation was created at Brookport by the discovery of the body of a new born infant in a vault at a residence. The corpse was called from Metropolis to be held inquest. It seems from reports that a woman alleged to be named "Bertha" Blak is the mother of the infant. She came from Pope county and was a domestic at the house where the body was found.

ESTRAY NOTICE.

THE OIL FIELDS

Mr. George C. Wallace Just Back From Texas on Business.

FOUR WELLS TO BE BORED

Some of the Property Has Been Sold, But No More Is on the Market—Many Big Land Suits.

CAPT. PELL TELLS ABOUT GAS HERE

From Saturday's daily.
Mr. George C. Wallace, who had been in Texas for several weeks, returned this morning to remain about ten days or two weeks on business.

His reports progress in the preparations for boring on his property. They were at first delayed by the difficulty in getting pipe, and then it was learned that wells would have to be dug for water to furnish the boilers with steam. This caused further delay, but now there are four derricks upon the Wisdom property, and all the necessary pipes, machinery and other material is there, ready for use, and boring will begin at once.

Quite an area of the property has already been sold at good prices, but no further sales will be made until the boring is finished. There are plenty of offers, but Mr. Wallace and other owners do not desire to dispose of it at present.

Texas is now very much excited over the oil discoveries, but there is less confusion than formerly.

Mr. Wallace reports that there are now over \$50,000,000 in suits pending in the courts over land that has more than one claimant.

Mr. Wallace will return to Texas as soon as he completes his business here.

Mr. Charles Pell, the veteran river man, was in a reminiscent mood this morning, and in speaking of the report that there was oil down below the lo factory, on the river bank, said:

"I remember about fifty years ago that we used to go down to the foot of what is now Jefferson street, where the river was low, and assume our selves lighting the bubbles that came up through the shallow water from the ground."

"It was a favorite diversion with all the boys in those days, and many is the time that we lighted the gas and watched it burn. I notice that one man is quoted as saying that it was oil, but in those days we called it gas."

"I remember that once the late Mr. J. G. Fisher, afterwards mayor, placed a hoghead upon one of the small gas jets provided by nature and ignited it, and it burned for several days. It was certainly gas."

"You could find those little jets then at most any place during low water from Jefferson street to where the Illinois Central incline now is. It may be oil now but it was gas in those days."

"It used to be a favorite theory in those days that the gas was generated from the vast deposits of dead leaves that decayed all over the bank. To later years I have heard nothing of the gas that we used to enjoy so much half a century ago, but it may still be there."

OREAL SPRINGS COUPLE THAT WOULDN'T BE DISAPPOINTED

Arthur McRoy and Miss Ida McLean, of Oreal Springs, who were in the city yesterday afternoon and made two attempts to get a marriage license, but were refused because they were not of age, crossed over to Metropolis and were married there by Justice Liggett.

The groom is 18 and the bride is 19, but the young man produced a paper purporting to have been written by his father, giving his consent, and swore that his father authorized him to write it. The license was issued on that statement, and the marriage proceeded.

TORACCO

From Friday's daily.
The tobacco market experienced practically no change from that of last week excepting on lugs. There were larger offerings but the bidding was not so lively as was expected. The market has recovered somewhat from its recent depression. Gilbert & Co. held no sales yesterday but will offer a few hogheads today.

Lugs were a little easier than last week and were about two bids easier than last week's lug market. Leaf is reported fully up in comparison with the market of the past several weeks. There were no hogheads of fine leaf offered. The out of town buyers were out in force. Mr. J. T. Myers, formerly a prominent tobacco buyer of Mayfield, but now of Louisville, was in the city yesterday attending the sales.

ILLNESS HAS AGED MRS. M'KINLEY.

Photograph Showing President's Wife as She Appears Today, Revealing Sad Changes Appearance—Friends are Pained at Her Altered Appearance.

Mrs. McKinley is no longer the smiling calm featured woman the many published photographs show her to be. The ravages of sickness have left their blighting traces upon the features of the sweet-tempered mistress of the White House and during the past few years she has aged more than the President. The above exclusive, authentic photograph shows Mrs. McKinley as she looks today. Her friends are aghast at her altered appearance.

\$8,000 LOSS

The Bazaar Destroyed By Fire and Adjoining Establishments Damaged This Morning

STARTED AT 3 O'CLOCK

The Fire Department's Good Work Saved Adjoining Buildings—Ladies Escape by Ladder.

PARTLY COVERED BY INSURANCE

From Friday's daily.
The Bazaar, at 215 Broadway, was gutted by fire at an early hour this morning and the adjoining buildings were saved only through the good work of the fire department.

The blaze broke out shortly after 3 o'clock. It started in the rear of the house from an unknown origin and swept upward, cutting off all means of escape for the Misses Abram, who resided up stairs. The two ladies were rescued by stationaries who placed a ladder to the balcony at the second floor and assisted them to the street.

The entire stock of goods will be practically a total loss as all that was not burned was soaked with water and ruined by smoke.

The furniture in the residence was also burned or ruined.

The stock of goods was valued at about \$5,000, much of it being new, and just received. There is \$4,000 insurance on it.

The building is owned by the Henselberger heirs, and the damage to it will amount to two thousand dollars or more.

The clothing store of S. Fols, next door to the Bazaar, was damaged by smoke and water to the extent of a thousand dollars or more. The loss will be fully covered by insurance.

Mr. John Doherty's stock of dry goods on the other side was slightly damaged by smoke.

The fire was a very dangerous one, and for a time the entire block was in danger. The fire departments did splendid work, and soon had the flames under control.

The total loss will be between \$4,000 and \$10,000 with partial insurance.

BEST STORY

Written upon a Subject Interesting to all Readers of the Sun.

A STORY WITH A SEQUEL.

In searching about for a story that would interest the people the writer selected one with all the elements of a good story. It is a story of a woman who is constantly seeking something new, some new idea of labor, some new invention, some new security, and all are seeking new ideas of fashion and dress. The particular new idea of fashion is not always the greatest object of study and research with the great masses of people. Some are looking for a cheap article of wearing apparel and others are looking for an article of wearing apparel cheap. And there are still others who are looking for an article of wearing apparel which cost the greatest amount of money. The latter class is comparatively small to the great masses of the second class mentioned above. However the writer of this story desires to address all the above classes, as he feels that each and every one will be extremely interested in the real object of this article. Fad, fancy and fashion seem to be the principal theme of the story, but there is a sequel to follow that will probably touch the much coveted goal of all classes and fill the desire and long felt want of an anxious people seeking good, reliable wearing apparel at the lowest possible prices.

This is not a fairy tale or a catch penny scheme, but an honest and liberal reduction on reliable merchandise at fair values. We call attention to a good costume worn out for men at \$2.95. Our better grade of soap price suits are made of woolen material in up to date stripes for \$3.98. We call your attention to a few samples of other suits displayed in our clothing windows at greatly reduced prices. Our line of boys' and children's suits is practically unbroken, and everything has been reduced in price, but your special attention is called to a big lot of juvenile suits in sizes from three to seven years at prices from \$1.00 to \$2.00. These goods are positively worth double the price. Beginning Monday morning we will make the following price for one week: Yard wide broken domestic for 1 cent. Dress gingham worth 10 cents for 6 1/2 cents. All our 4 1/2 cent percale for 7 1/2 cents. Best indigo blue calico 4 1/2 cents. Three pieces of silk chaille, worth 10 cents for 25 cents per yard. All our \$1.00 corsets for 75 cents. All our \$1.00 kid gloves for 84 cents a pair.
